

The SIGCO Mirror

"Quality Insulating Glass"

May, 2010

Reminders Glass

SIGCO offers a shape catalog with over 50 shapes. In addition, we are able to cut glass from DXF files. If the shape isn't in the catalog, and you don't have a file, we can work from a full-size template.

A sturdy, dark paper, like kraft paper is preferred. Lines should be drawn with a fine tipped, dark marker.

Please prepare templates with an "outside looking in" orientation.

Metal

SIGCO stocks Tubelite E4500 and T14000 storefront systems in white. There is no additional charge for white material from the cost of dark bronze.

Sundries

SIGCO's Screen Wire Spring Special continues through July 2, 2010. Prices are discounted on screen, sash, spline and corners.

SIGCO Will be closed Monday, May 31 in Celebration of Memorial Day

SIGCO Delivery Schedule Week of May 31, 2010

	<u>31-May</u>	<u>1-Jun</u>	<u>2-Jun</u>	<u>3-Jun</u>	<u>4-Jun</u>

X = Regular Delivery Schedule, SC = Change in Schedule.
→ = Overnight

SIGCO Glass / CRL Railings

SIGCO now has the ability to perform material takeoffs for C. R. Laurence railing systems. Products include Aluminum Railing Systems (ARS), Glass Railing Systems (GRS), as well as post railing systems and wind screens.

Receive the glass and the railing system in one package, at one time, without any common carrier or delivery charges.
