

The SIGCO Mirror

"Quality Insulating Glass"

November, 2011

Spandrel Products

SIGCO's second tempering furnace is now operational, and we are now manufacturing both ceramic frit spandrel and Opaci-coat 300® spandrel in house.

SIGCO has eight colors in stock, for each process. Please ask your salesperson for a color chart of standard colors.

"Cooper" Promoted

Rachel Cooper has been promoted to the supervisor of the shower door department. Please offer her your congratulations!

Order & Invoice Preference; Checks by Phone & Fax

SIGCO is able to send order acknowledgements and invoices by email as an alternative to by fax.

SIGCO is now able to accept payment by phone and by fax.

For more information, please contact Dawn Barker at 207.775.2676 x115 or by email at dbarker@sigcoinc.com

New Boom Truck Added to SIGCO Fleet

SIGCO has added a 12th truck to its fleet. The newest truck is a dedicated boom truck with additional case capacity for jobsite deliveries.

In addition, the crane has a longer reach, allowing access to higher elevations than the other boom trucks in our fleet.

IECC

Maine, New Hampshire and Massachusetts have all adopted requirements of the International Energy Conservation Code as part of their building codes.

Please ask your salesperson for a summary, or call Troy Johnson with any questions, at 207.775.2676 x117.

Visit us at BuildBoston

SIGCO will be displaying at the BuildBoston trade show November 16-18 at the Boston Seaport World Trade Center.

SIGCO will be in booth 930 on the show floor.

Registration is available before you arrive at the show at buildboston.com

We look forward to seeing you there!
